

It is now possible to top up regular CEPAS-compliant EZ-Link cards with your credit card.

Tops can be done using an EZ-Online card reader, which has to be purchased for S\$49. Alternatively, top-ups can be made via [EZ-Online](#) , but the EZ-Link card would have to be brought to an AXS D-Pay station for the top up to be effected.

Limitations

Only Mastercard is supported. In addition, regular AXS stations would not suffice; EZ-Link cards can only be read at the new [AXS D-Pay stations](#) .

No Extra Charges

There is no fee for this service during the introductory period, but a convenience fee would be imposed after that.

Luck Draw

From 15 October 2009 to 31 October 2010, anyone who links a MasterCard credit or debit account to his or her EZ-Link card using either the EZ-Reload by Card or EZ-Online service can participate in a contest to win free rides.
